Phil Velikan : Cthulhu's Coloring Book and Necronomicon of Sunny Day Doings before purchasing it in order to gage whether or not it would be worth my time, and all praised Cthulhu's Coloring Book and Necronomicon of Sunny Day Doings:

I looked through the activity book (yeah, not just coloring, but has fun mazes, connect the dots, etc) before gifting, and was a little bummed that Cthulhu was only in a few pages. It was delightfully full of puns and other Lovecraft creatures. He was excited about it (as well as the gift bag I made) along w/ the other Cthulhu themed merch thrown in the bag!0 of 0 people found the following review helpful. An Encyclopedia of Lovecraftian Horror for Your Artistic Pleasure AwaitsBy J. FeldesAs a fan of all things Lovecraftian, the concept is highly appealing to me. I was a little disappointed that the artwork is not more detailed or intricate. Most

of the characters stand alone on blank backgrounds. I was hoping to see the Mountains of Madness and Plains of Leng... maybe a glimpse of the crumbling glory of R'lyeh. If you are a creative type who enjoys blank backgrounds and the potential they hold, this is probably the 'coloring' book for you. 0 of 0 people found the following review helpful. Fun for Lovecraft geeks! By Argentosmom This coloring book is creepy yet funny. The depictions of the various critters are very good (the moon beast especially looks the way I pictured him!) Probably going to use colored pencils and crayons instead of marker as a couple folks said markers bleed through. I bring coloring books and magazines to friends' houses so I can keep sane if they're watching the Kardashians lol! Overall this looks like a fun time for this Lovecraft geek!

In this second printing, we listened to your comments. We added backgrounds to the art and some new pages of eldritch horrors, as well as redrew most of the old images. We even saved the old background-free drawings from the last book for decorating and craft use (4 per page). The improvements added 16 pages, so even if you have the old book, this one will be even better at 56 pages and the SAME great price! We also wanted to start a series by bringing the cover in line with our second book: Monsters and Cryptids of the United States of America. Click on the author name above and get both! At long last, the stars are aligned and a tome of activities has arisen! Word games, mazes, puzzles and dot-to-dots punctuate dozens of coloring pages featuring horrors out of time that await your crayons! Keep the book complete for your monster reference, or cut it up to make dioramas and mobiles or puppets you can use to act out a play and keep your co-workers away. Hours of madness and mind games are found within these pages! All horror but no blood for younger cultists, unless of course they go wild with a red crayon... Pages of creatures from the depths of R'lyeh wait for you to open the portal to Cthulhu's Coloring Book and Necronomicon of Sunny Day Doings... if you dare.
