I have been listening to his daily podcast (Student of The Gun) since the very first episode. In many ways this book showed a side of Paul that was much more approachable affectionate than

many people would believe. That is coming for someone like myself who already completed his sentences out loud when listening. What a great man, warrior, role model for adults children in so many respects. Jarrad, Paul's oldest son is certainly featured in the book is also a great man in the making. This book has caused me to laugh out loud - not lol. What a great read. I have read it 6 times now and still bust up.p.s. Mom's tale is the best1 of 1 people found the following review helpful. Did you know he has a TV Show?By Troy CloptonGreat fun little book to put you in a good mood. Great book of traditional American common sense and wisdom with humorous twist. If you didn't know Paul also has TV Shows, Daily Podcasts, several other more serious books and live training events. I am a Student of the Gun.4 of 4 people found the following review helpful. “Dad Rules; Wit and Wisdom from a Dad to Whom it May Concern” is a collection of short tales, witticism, and heartfelt advice. Sprinkled throughout you will find short tales from the life of the author and his beloved bride. The material offered herein is based upon three decades of “dad experience”. While some “Dad Rules” are based upon observation, the vast majority are based upon the real-life experience of the author, the dad. If it seems too ridiculous to be true, it is not. Dads will understand. “Dad Rules” is NOT a new age, touchy-feely, everyone gets a damn trophy book. There are no participation trophies in life. The sooner kids grasp that concept the better. "Dad Rules" follow up on the success of Paul Markel's parenting book, "Team Honey Badger; Raising Fearless Kids in a Cowardly World", an Amazon bestseller.
