Each drawing is unique and has it's own personality. Her ladies are not your run of the mill cutesy smiling faces, as you can see from the cover, rather, project their own personalities. I can't wait to see what Ms. Beauchamp does in her next collection. (I hope some will be butterflies and peacocks) The book itself is printed on high quality paper and each drawing is on a page of it's own. Laurie Beauchamp's artistry is a rare gem in the very prolific world of adult coloring.1 of 1 people found the following review helpful. Cute and whimsicalBy luebVery cute book. This is my first book by this artist and I enjoy her style of drawing. The dragons are very whimsical in nature. The designs are printed on one side of light weight paper that is not perforated but can be easily removed as the drawings don't go into the binding.3 of 3 people found the following
