Inspiration and encouragement By Donna K This book provides inspiration and encouragement, not just for those battling breast cancer, (or any cancer), but for anyone. The handwritten letters contained within the book are beautiful, sometimes funny, and always heartfelt. The letters from children are especially touching. I don't want to single out any one letter, when you read the book, you will discover

your own favorites. I am not a person who rereads books, but I will keep this book nearby, so I can read the letters again, especially after a hard day. And yes, I am one of the contributors, having one of my letters selected for the book. I feel privileged to have a letter included. The book is beautifully done, with amazing stationary backgrounds for the letters. Dear Friend is a book to cherish!2 of 2 people found the following review helpful. This would be a thoughtful gift for any woman who receives this life-changing diagnosis. It should be in all oncologists' offices, radiation and chemo centers.1 of 1 people found the following review helpful. Great for survivorsBy alliThis is a lovely gift to give to a newly diagnosed breast cancer patient. It is a compilation of letters written by all ages and stages of people. I wish this book had existed when I was diagnosed 7 years ago. You can read a letter a day or the whole darn book. It is the love of perfect strangers wanting to be there.

This beautiful collection of handwritten letters offers strength, encouragement, and comfort to women living with breast cancer. Written by compassionate strangers—many of whom have gone through their own health battles—these heartfelt letters were gathered by Girls Love Mail, an organization that provides support to people diagnosed with breast cancer as seen on NBC Nightly News. Presented in an elegant package with metallic endpapers, and a ribbon marker, and brimming with warm messages of empathy, inspiration, and humor, Dear Friend delivers words of wisdom when they're needed the most.
