Anthony E Thorogood : Death in the Australian Outback (Bigfoot Littlefoot West) (Volume 1) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Death in the Australian Outback (Bigfoot Littlefoot West) (Volume 1):

1 of 1 people found the following review helpful. ... light reading and this one fits the bill just fine. Having done considerable travelling myself By Julie Evans Tony's books are entertaining light reading and this one fits the bill just

fine. Having done considerable travelling myself, I enjoy stories that develop mental pictures of having been in many of these places myself. This was my 8th by Tony and #9 is in progress. 1 of 1 people found the following review helpful. Disappointing - Died in the Outback By Keith Saunders I struggled to find anything but clumsy and puerile humour in this text. It has little context and was seemingly written by someone with scant knowledge of the Alice. Disappointing... 1 of 2 people found the following review helpful. Definitely not my kind of book! By Lorna Jeanne Gibson I didn't think the description was accurate. "A Comic Whodunit" isn't exactly how I would describe the book, but after the first few pages, I couldn't take any more of the crude language so maybe the comedy came later in the book.

Death in the Australian Outback: The Australian Outback is the backdrop to this first in the Bigfoot series which sees West angling for a job with TURDS. It's packed with misunderstandings, mishaps, bizarre exchanges and loads of laughs. Along with other books about these three stooges, yarns about this zany trio are rapidly becoming a cult series from an author with a seemingly endless fund of crazy ideas and themes. Strongly recommended if you enjoy a good laugh
