The Decipaint adult coloring book is an innovative approach to traditional color by number. Each picture is expertly crafted from beautiful photographs for a unique coloring experience. There are a variety of images of varying difficulty, including beautiful landscapes, adorable animals and colorful scenes from around the world. We recommend using a 50-pack of Crayola coloring pencils, which match the color names used in our chart. You can also use your own coloring pencils, pens or paints, just match them to the shades in our chart.

About the Author Laura McMillan is a Brit living in San Francisco with her Australian bloke. Loves fishes, coloring, Australians, and coloring Australian fishes.
