Totally a book for horror loversBy crystal calhounI'm not going to lie i have half this book finished. I absolutely love it! i like hows theres not alot going on but just enough also you can add your own backgrounds to the art. I recomend this to anyone who wants a good spooky coloring book.5 of 5 people found the following review helpful. Harness The Terror, By ColoringBy thirtdwinGreat choice if you want a coloring book that isn't geared to kids, large pictures-quality paper and monsters that haven't been dumbed down or sweetened up. Plus there's enough pages and line work to make the coloring worth your time. Crayons are too waxy and won't cover or layer so if you're buying this book for yourself get some colored pencils to go with it and you won't be disappointed.

Prepare to meet 45 of the most vile, demonic entities on Earth in this portrait gallery of pure evil. Each full-page image is printed on its own page to reduce bleed-through but with this group profuse bleeding is the norm.
