The captions to the animal photos are adorable, and even if there was no wording on the inside of this little book, I LOVE THE TITLE OF IT enough to buy it on that merit alone. 0 of 0 people found the following review helpful. Fun and Helpful Book By Marlene M Fun to read; the pictures are great; and the book is chock full of common sense tips for losing weight. I highly recommend it. I read my daughter's copy, then bought 1 for me and 2 more for gifts. 0 of 0 people found the following review helpful. Heart warming + laugh out loud book By Patricia This book made me laugh like crazy, I had to stop reading it in public to not look like a lunatic. I've gave this book to many friends and they all loved it.

"When you start a diet, the first thing you lose is your mind." Bradley Trevor Greive With his trademark wit and humorous animal photographs, BTG explains that the true motivation for losing excess weight and keeping it off is purely to enjoy a better quality of life, to get the most out of our brief time on this earth. Dieting Causes Brain Damage identifies the most common causes of weight gain as well as the perils of extreme dieting, suggesting that the number-

one lesson is to "Keep your mouth shut." This reduces the number of calories consumed and stops you from constantly whining and making excuses about your appearance. You don't need a PhD., millions of dollars, plastic surgery, a library of fad diet books, or a Day-Glo Lycra bodysuit to get into shape. Eating well, enjoying quality sleep, and getting a little exercise is the key to weight loss and personal health and fitness. This wonderful gift book is for anyone who would like to be in better shape and could use a few laughs along the way a uniquely refreshing guide to looking, feeling, and living well that is free from false promises, tasteless recipes, and leg warmers.

About the Author Since the debut of his international bestseller *The Blue Day Book*, Bradley Trevor Greive has become a household name in more than 115 countries. A former Australian paratrooper, BTG left the army to pursue more creative misadventures. He has been bitten by wild monkeys and rabid bats and was accepted into Russia's cosmonaut training program--though those incidents were, by and large, unrelated. BTG spends most of his time in a tiny Tasmanian hamlet.
