Scott Adams : Dilbert 2017 Mini Wall Calendar before purchasing it in order to gage whether or not it would be worth my time, and all praised Dilbert 2017 Mini Wall Calendar:

But all of the cartoons are black and white this year, and the large image is a single frame in very simplistic color - there was far more effort put into last year's calendar which had better colorization and all three frames of the strip in question up top.0 of 0 people found the following review helpful. Five StarsBy spiceggIWho doesn't love Dilbert? Exactly what I was expecting, a year's worth of good humor: aka, therapy!0 of 0 people found the following review helpful. Five StarsBy CRWExcellent.

The next time your own Pointy-Haired Boss asks if you're expecting any unforeseen problems, simply take a quick glance at your Dilbert 2017 calendar and make convincing reassurances that everything is under control thanks to the company's brilliant leadership. It won't really help with inane questions like that, of course, but you'll look impressive, and it'll give you another excuse to check out a Dilbert cartoon and remind yourself that things could be worse.An entire year of dodges and feeling better about your job are in this smallish wall calendar featuring a blown-out character and a pithy quote, just the right size for any cubical dweller.
