Scott Adams : Dilbert and the Way of the Weasel before purchasing it in order to gage whether or not it would be worth my time, and all praised Dilbert and the Way of the Weasel:

A surprisingly accurate guide to business behaviors!By PaulOne of my favorite books, and one that has served me very well in nearly a decade of working in the business world. The psychology in the seemingly far-fetched scenarios is all too real, and it helps you cope with jerks in the real world when you can see the parallels between their actions and the weasel methods in this book.I'm dead serious, if you are a manager or an employee, seeing the crappy way people behave through the wonderful lens of dilbert and Scott Adams' hilarious writing is very much a real-world applicable tool that can make your work life better. Being able to say "you're being a weasel right now" and pointing to an example in the book makes you feel less crazy when you are beating your head against the wall and asking your SO every night how people can behave that way.2 of 2 people

A very easy read if you dont mind laughing out loud over and over again. Scott Adam's has a way of pointing out just how silly things have become in the normal business place today. Dont be upset if you fall into one of these chapters. If you are a Safety, HR or any supporting department outside of the real money makers, you will still laugh.0 of 0 people found the following review helpful. One of the best of Scott Adam's "Dilbert" text written booksBy QUOKKA_54I like Scott Adam's writing, mostly the earlier stuff, and this is one of his funny classics. Please notice this is NOT a cartoon book but text, and Scott makes a lot of funny writing about the workplace life from the point of view of one of the peasants. i still like to re-read from time to time since what he writes about, will never be obsolete.

In this new mass-market format, Sunday Times best-selling author Scott Adams presents an outrageous look at work, home, and everyday life in. Building on Dilbert's theory that "All people are idiots," Adams now says, "they are also weasels." Just ask anyone who worked at Enron. In this book, Adams takes a look into the Weasel Zone, the giant grey area between good moral behaviour and outright criminality. In the Weasel Zone, where most people reside, everything is misleading but not exactly a lie. Building on his hugely popular comic strip, Adams looks into work, home, and everyday life and exposes the weasel in everyone. With appearances from all the regular comic strip characters, Adams and Dilbert are at the top of their game - master satirists who expose the truth while making us laugh our heads off. 'Funny, apt -- relentless' Financial Times 'It would be unwise to bet against The Way of the Weasel' Economist

'Funny, apt - relentless' Financial Times 'It would be unwise to bet against The Way of the Weasel' EconomistAbout the AuthorScott Adams used to work in a cubicle for telecommunications giant Pacific Bell; he escaped ten years ago and lives in northern California. His books, The Dilbert Principle, Dogbert's Top Secret Management Handbook, The Joy of Work, and The Dilbert Future, have sold three and a half million copies.
