Smith I look forward to getting to the office a little early, tearing off yesterday's sheet, reading today's calendar sheet, and laughing out loud. I use the old sheets to write notes for colleagues (instead of stick-it notes), which usually are apropos to the office goings on that day. I love Adams' creativity - the ironies and utter stupidity are something that we all can really relate to at work! For the amount of laughter that this calendar has given me and my colleagues, it was well worth the price and I'm destined to purchase it again next year! 0 of 0 people found the following review helpful. Highlight of my morning By Colorado Fun I love starting the day with this, everyone wants my old ones when I finish. I think Dilbert seems to relate to every office. 0 of 0 people found the following review helpful. A must for all office workers. By W.Q. I have been getting the Dilbert calendar every year for the past 7 years, and can say that sometimes it is the only reason I show up to work! Scott Adams has managed to find humor in the day to day routine of office and cubicle life. The comics are so funny yet they are so true to real life.
