thrillers and mysteries. Ihde's collection of essays depicted cherished memories from many aspects of being a farm girl in Iowa. Like Laura Ingalls Wilder, her descriptions bring scenes to life with her detailed descriptions and depth of feeling. And I found my mysteries and thrills: The mysteries in this book are: What is a Joe Plant? Do these essays represent bygone days? And the suspense: Will the kolaches arrive in time? The memories were so charmingly written that they brought back my own memories of growing up in Iowa. If this book didn't warm your heart and make you smile, you missed something and you better read it again. 0 of 0 people found the following review helpful. Excellent book. A collection of short personal essays created when a stressed career woman decided to become "un-wired" and began writing to uncover life lessons gleaned from family and farm life in Iowa. These funny and poignant essays dip into the magic waters of traditions, childhood memories, and the power of the natural world to comfort and remind us of what is really important.
