So why would I rate it with one star?Well, first of all, compared to other adult coloring books, I find the pages to be much thinner. If I were to color with markers there is no way I could do so without a cardboard or something between the pages. Although this is in no way the reason for the one, I do find the quality of the pages a bit annoying because I for one, do like to display my work!The real problem comes in with the fact that the author is soooo worried about copyright that their website ruins EVERY SINGLE page! Meaning this...their website is WITHIN the images on every single page of this book! I have taken pictures for your viewing! Now, some people just color these and something like that wouldn't irritate them!! It irritates me that there needs to be a website WITHIN the picture I'm trying to color! SERIOUSLY??I for one do read all the reviews of a

product before purchase and I wish someone else would have pointed this out prior to my purchase and I wouldn't have purchased! This is the very FIRST adult coloring book that I've purchased with the website on EVERY page...heck on ANY page...It's a little...well no, A LOT...overboard! Make me a book exactly like it...even with the poor quality pages and I would definitely buy it again! But for now, this one is going back! I love this NAUGHTY book, I do, but I can't stand the website...I may be the only one it irritates...and I'm okay with that! However, if I can save one return, I've done well. I also think it's worth stating that I've bought MANY **adult** coloring books and this is my first complaint! 0 of 0 people found the following review helpful. You dirty little house wife, you!! By CLatI don't know where to begin with this book. I'm in love! The pages have the perfect amount of sexy and sassy sprinkled throughout. My husband is in the military and is gone for long periods of time and has a long workday as well. So, these are perfect for when I want to slip him a little something sexy without going overboard. The designs have just the right amount of complexity to hold my attention and to get me to actually finish coloring the pages. If you have a sexy side, I would recommend this book! You won't be disappointed and neither will your significant other! 1 of 1 people found the following review helpful. Not bad By Debbie and Adrian Duvall Its okay. Some of the sayings are cute. One or two I love. I guess I was hoping for more kink. But for a vanilla housewife its a good book. Her Karleigh Sue books are much better. But again not totally bad for \$3.99.
