David Jablow : Do It Yourself Doodler before purchasing it in order to gage whether or not it would be worth my time, and all praised Do It Yourself Doodler:

1 of 1 people found the following review helpful. Amazing artbook!By K. LeeI bought this book after seeing images by David Jablow circulating the web from this series. I was so excited to find this collection in an affordable book format. David is an extremely talented artist and the detail in each piece is amazing. The only thing I'd like to mention is that there is some artwork with nudity in it. None of the artwork I saw circulating had these pieces included. It is still tastefully done, but this is definitely a book I'd recommend putting out of the reach of children for this reason. Well worth the buy!1 of 1 people found the following review helpful. Five StarsBy CarmodyThe dude has an amazing

creative imagination.

The internet sensation Do It Yourself Doodler began with a found artifact: a vintage novelty pad featuring a suggestive, unfinished outline of a woman. Watch the femme fatale transform effortlessly through a myriad of grotesque and extraordinary situations, in this entertaining collection of illustrations from the mind of David Jablow.
