Richard Gordon : Doctor In The Soup before purchasing it in order to gage whether or not it would be worth my time, and all praised Doctor In The Soup:

This witty medical mystery sees the deeply ambitious MP for Churchford join the list of Richard Gordon's private patients. Gordon is surprised when the MP pays him a visit of particular delicacy, but agrees to refer him to a

psychiatrist. The referral letter goes astray and turns up in the hands of the press!

One reads throughout with a gentle smile that breaks into a bark of laughter at some unexpected ribaldry or asperity.--
Sunday Times
About the Author
Richard Gordon is best-known for his hilarious 'Doctor' books and the long-running television series they inspired. Born in 1921, he qualified as a doctor and went on to work as an anaesthetist at the famous St Bartholomew's Hospital, before a spell as a ship's surgeon and then as assistant editor of the British Medical Journal. In 1952, he left medical practice to take up writing full time and embarked upon the 'Doctor' series. Many of these are based on his experiences in the medical profession and are told with the rye wit and candid humour that have become his hallmark. They have proved enduringly successful and have been adapted into both film and TV. His 'Great Medical Mysteries' and 'Great Medical Discoveries' concern the stranger aspects of the medical profession, whilst 'The Private Life' series takes a deeper look at individual figures within their specific medical and historical setting. Clearly an incredibly versatile writer, Gordon will, however, always be best known for his comic tone coupled with remarkable powers of observation inherent in the hilarious 'Doctor' series. 'Mr Gordon is in his way the P G Wodehouse of the general hospitals' - The Daily Telegraph. 'I wish some more solemn novelists had half Mr Gordon's professional skills' - Julian Symonds - Sunday Times
