They are well done. This one I got after having read that it speaks 3 lines and has a light up laser. Spoiler alert: it does not have a light up laser. Whatever light up effects it does have do not seem to operate as promised. There is a light in there but it doesn't get projected anywhere. My unit is brand new and it's in otherwise tip top shape. But the way the light up feature actually works... well it quite dims my enthusiasm for the product. Meh. I recommend passing on this one unless Running Press makes needed improvements. 1 of 1 people found the following review helpful. Cheaply made, broke immediately By Rebekah Kirby So poorly made, the suction cup arm broke off as it was taken out of the box!! The eyestalk was soon to follow suit. It didn't even get played with, simply handled. Very disappointed. 2 of 2 people found the following review helpful. The Supreme Dalek! By Patti Rudyj Great looking and sounding Dalek!
