Susan McMullan : Dog Shaming: Canine Confessions before purchasing it in order to gage whether or not it would be worth my time, and all praised Dog Shaming: Canine Confessions:

2 of 2 people found the following review helpful. Cute - too much textBy djlistenerNice book - entertaining - but I was hoping for something more like Pascale Lemire's "Dog Shaming" which is simply pictures (mug shots) of the misguided canines with their simple rap sheet hung around their neck. That book gets a 5 star.1 of 1 people found the following review helpful. Very funnyBy munchieFunny book. I love books about animals, especially ones that give them "human" feelings and thoughts. At least, what we humans think they are thinking. This one is great, definitely worth reading.0 of 0 people found the following review helpful. Worth buying. Would be a great gift item.By Diane PetersThought it would be a bit funnier, but it was pretty funny. Some of the signs were difficult to read, but I have old eyes, maybe you would have it easier.

Our beloved pooches bring us a world of happiness. They're loyal companions, kindred spirits and lifelong chums. But they also chew the stuffing out of the couch, keep us up all night with their barking and break into the fridge when we're not looking. Now it's time they own up to the world! And their side-splitting explanations and unapologetic confessions are sure to remind you just why pooches make the most wonderful, but sometimes infuriating,

companions! Loaded with real-life photographs of mischievous canines, 'Dog Shaming' is a tribute to man's best friend.

About the Author Susan McMullan is a communications executive for Scottish Development International, the international arm of Scottish Enterprise. She works with Scotland's leading journalists and most successful businesses on a daily basis. She is also a freelance writer, specialising in news, business and current affairs. A keen sportswoman and travel enthusiast, Susan has lived in St Andrews for the last five years.
