My kid is 6 and reading at a second grade level (oops). He loves Domo so much that he lost his mind when he got the book and totally loves it. It made his day and it's an easy read for him so it doubles as a confidence booster for him. Book is very sturdy and Domo is cute as always!2 of 2 people found the following review helpful. This book is delightful!By K3843Somehow I missed the fact that this was haiku when I ordered it...frankly, I just wanted a Domo book for my Domo obsessed son (age 6).I'm a poet and occasionally write haiku myself, so I'd previously explained what that was to my son. Imagine my surprise when I started reading this lovely little book to him! It was a perfect reinforcement of what I had taught.Of course adults who are Domo fans would enjoy the adorable photos and simple verse...but for a kid, it's even better. My older daughter (11) got a kick out of it too.Very kid-friendly writing -- funny sweet.It was a big hit and I totally recommend it!1 of 1 people found the following review helpful. Terrific Little BookBy savvyon941Domo...who can't love Domo. This book is a collection of tableaux, often really funny, or Domo coursing his way through the year. It is printed on havilt laminated cardboard with great colorwork. Anyone who loves Domo will love owning this book. Anyone who dosn;t love Domo, be very suspicious of...I gave it four stores because you can't help being so sad when you've gotten to the last page. It should be longer.

Domo is the funny, square-ish, brown creature that began life as a mascot for a Japanese TV network, but who has blown up into a beloved international phenomenon. His fuzzy, grinning mug has appeared everywhere from plush toys to figurines, T-shirts to key-chains, as well as on more than one million fansites and on his official Facebook page, where he has made over 230,000 friends. But Domo has never had his own book . . . until now. Featuring original

photography and haiku, Domo in the World shows our plush hero making his way through the world, whether flying a kite (or is the kite flying him?), wooing a pillow that looks suspiciously familiar, or eating anything in sight. At last, theres a witty and quirky love letter to the inimitable little guy whos dug by fans of all ages around the globe. Praise for Domo in the World: Entertaining silliness with a generous pinch of irony Publishers Weekly Domo in the World is the perfect introduction to the Domo phenomenon and a real treat for his large preexisting fan base as well!
