Christopher Pollard : Don't Blame God for Religion before purchasing it in order to gage whether or not it would be worth my time, and all praised Don't Blame God for Religion:

Peter JorgensenThe (well placed) sarcasm meant no skimming while reading Don't Blame Good For Religion because you might miss a laugh. And with me being so literal, it also meant reading some things twice because literal people can be so gullible. But all isn't laughs! I learned more about other religions, our culture and biblical truth. And I got so excited (this is

where a less manly man would cry) when I realized that the author got it right - it's not religion, it's the Word, Jesus, Southern cooking and hospitality (I guess I'm a Southern Baptist at heart). In all seriousness, please read this book. I don't care if you're saved or don't give a darn. If you're saved, it will give you something to think about. If you don't give a darn, it will REALLY give you something to think about. PLEASE don't let religion or "Christians" keep you from a life altering relationship with Jesus! 1 of 1 people found the following review helpful. LOL By D Vixen I literally "Laughed Out Loud" with some of Mr. Pollard's comments. A wry, and somewhat even-handed outlook on faith; despite his falling off the Ark by leaving the one, holy, Roman, "small c" catholic and apostolic Church - which is the only Christian faith to have survived over 2000 years. For the first century and a half, it was the only Way! Nice to notice that there is not the usual vitriol associated with former Catholics. You're welcome back to Rome any time, kind Sir! The 'smells and bells' await your return. First, though, read up on the so-called "Nazi Pope." When the New York Times and the leaders of Israel thank the Vicar of Christ for all he did to save Jews during WWII, you have to revisit incorrect deductions arrived at from fallacious sources. Thanks for the fun visit, and this reader anxiously awaits your next book. Blessings! 1 of 1 people found the following review helpful. Great Book! By Stephanie I read this review in past and thought it was well deserved for this book ..." ... A landmark in its field, astonishing in its range, compulsively readable, full of insight even for the most jaded professional and of illumination for the interested general reader. It will have few, if any, rivals in the English language." Dr. Rowan Williams. After reading this book in three days I was filled with knowledge about Christianity and laughter, as this book is filled with comedy for such a tricky subject. I have to say incorporating humor into religion and making the book persuasive it's not easy and Mr. Pollard brilliantly accomplished this. Great read definitely worth it!

Remember when religion was fun? (Neither do I) This book dares to make religion fun again by taking you on a funny trip from Biblical times to the present tackling such controversial topics as God, Jesus, the Crusades, Spanish Inquisition, suicide bombers, the Bible, evolution, gay marriage, abortion, and life after death. Since religion isn't so fun anymore, more people than ever are becoming atheists. The New Atheist movement has many people deluded about God, even though many still think God is great. This movement is waging war on Christianity and wants religion abolished in the modern world. They think that religion has brought far more harm than good to the world, and enslaves people to irrational thinking. Are they right? Refuting atheism and defending Christianity are no easy tasks. This book attempts to prove God's existence by showing how God revealed Himself to the world. First, He revealed Himself to the Jews and got them out of more than a few jams. Then, He became a man named Jesus and walked the Earth in sandals. Next, the Catholic Church came along and said it had all the answers, until Protestants came along and said the same thing. Of course, much fighting ensued, but maybe the world was better for it. Understanding and obeying God are no easy tasks. Today, we are living in the post-Christian era. Entertainment is America's new religion and promotes a secular agenda. Have you noticed that pop culture is nothing but a brainwash for accepting immorality? Probably not, since every movie you see and every song you hear seems to subtly treat sex and violence like they are life's highest virtues. Entertainment wants to win over the youth, so they can forget God as early as possible. Is going to church nearly as fun as today's entertainment? Now that you're a follower of God, is He done with you? Absolutely not, He wants you to be with Him forever! He has plans to defeat the Devil once and for all, and rapture all Christians up to Heaven! Jesu
