Dr. Steve Wollett : Donald Little Hands: Seussian Adventures in Trumpian Politics before purchasing it in order to gage whether or not it would be worth my time, and all praised Donald Little Hands: Seussian Adventures in Trumpian Politics:

Lamponing presidential candidates is a time honored tradition and Steve Wollett has made it his mission in 2016 to lampoon them all. In this book we take on the Donald, and explore his campaign as if it was taking place in a world created by the great Dr. Seuss.

About the AuthorSteve Wollett has had many accomplishments in his life and worn many hats. He was been a cancer survivor, EMT, Minister, Firefighter, and has even run for political office himself. He has been a judge of elections, notary public, and was elected auditor of his home town much to his surprise as he was not even aware that people were writing him in on the ballet. On the fun side of life Steve is a game designer, movie producer, and author. He loves to play devil's advocate and to stir up controversy. He penned the books Blasphemous Cocktails, Killer Cocktails from Outer Space, and C is for Crooked. Currently he is working on his directorial debut on the film "And now a Word from a Gamer". You will be able to see the film in late 2017.
