**F.J. Sharp : Donald Trump: Let's Look at the Bright Side** before purchasing it in order to gage whether or not it would be worth my time, and all praised Donald Trump: Let's Look at the Bright Side:

Donald J. Trump. • He sought to delegitimize the nation's first African American President. •He campaigned as a racist, misogynist, sociopathic liar and xenophobe. •He regularly incites political violence. •He mocks the disabled.

•He insults Mexicans. •He disrespects women. •He threatens blacks. •He wants to ban and deport all Muslims. •He dismisses veterans and gold star families. •He undermined the very foundation of the democratic election process. •His wife is a plagiarist. •His Chief Strategist is an avowed white nationalist. So, um, let's look at the bright side.... This little novelty book makes light of an otherwise serious situation: The bright side? There IS none. All of the interior pages are blank.
