In the near future, in a world so, so much like our own..... Donald Trump vs. The Zombie Apocalypse Episode I The struggle to cash in on Trump hysteria. It is a period of post-apocalypse. A young woman is searching for hope and high-end designer clothing. She's lost everyone she's ever loved and is haunted day and night by the undead and memories of the time before, the Time of Trump. A time when everyone was Hot, and a pair of Bruno Maglis could be bought with money from the government. She hasn't given up like a loser. Instead, she is on a quest to find the one man who can make America Great Again. On the way, she faces extreme trials and meets unlikely allies including many famous people from a time gone by like: Bernie Sanders, Sacha Baron Cohen, xkcd creator Randall Munroe. There are also many other celebrities that may or may not be figments of her imagination including, Jay Mohr, Sandra Bernhard, The Rock, Johnny Depp. Her struggle isn't easy she faces threats from Ted Cruz, Ben Carson, Megyn Kelly, and a force so unspeakable it can not be named here. This epic struggle is action packed and seasoned with satire, but it reads fast, it's a refreshing novella that you can easily finish in a few sittings.
