Not exactly what I expectedBy Christine GarrisonThe book was in great condition, my only complaint is that this book was published with 2 different covers. I thought I was ordering the Donkey's Can't Sleep in Bathtubs but received the Pickles Must Bounce cover instead..While the book is exactly the same, I had the Donkey's Can't Sleep version as a child and was specifically ordering that one for my son and was a little disappointed to get the alternate cover. The different cover might have been stated in the description and I just missed it, not sure..Otherwise, the book was in great condition and shipped quickly.0 of 0 people found the following review helpful. very disappointing - buying just the first or last would have been fine because the repetition was annoying and while they wereBy AM FANI purchased all 3 expecting them to be different due to succession, very disappointing - buying just the first or last would have been fine because the repetition was annoying and while they were inexpensive, all three resulted in wasting money0 of 0 people found the following review helpful. Five StarsBy mom of a crowdI loved it

Does this book sound crazy to you? Well, it is and it's a lot of fun to read! While there are some books I find to be funnier this one is still very funny. Besides the laws in the book, there is also some history that is talked about behind

many of the laws that make it an interesting read.
