Zifflin : Doodle Invasion: Zifflin's Coloring Book (Volume 1) before purchasing it in order to gage whether or not it would be worth my time, and all praised Doodle Invasion: Zifflin's Coloring Book (Volume 1):

218 of 220 people found the following review helpful. AmazingBy CustomerThis is my first coloring book since childhood. I used to do paint by numbers on and off for years, but they got too expensive for me. This coloring book (from the hours I spent searching on) is very unique and original. The designs are very artistic, detailed, and intricate. You can tell the artist spent a lot of time on them. You just want to stare at the page for days to see all the little details.I just finished coloring my first page (uploading image, and will upload each I finish). I removed the binding of the book with an iron, scan each page one at a time and print them so in case I screw up or want to color a design differently later on, I can. Plus I find coloring on inkjet paper with sharpies to be smoother and more satisfying.I SERIOUSLY hope the author/illustrator makes more of these books. I will buy them for sure.edit: Also, if you search Youtube for Doodle Invasion you can see a preview of every image in the book.140 of 142 people found the following

review helpful. I love the fact that this coloring book let me create ...By SarahI love the fact that this coloring book let me create a world. Most coloring books are random geometric shapes or flowers. You can color it, but it doesn't let you be creative. These pages come alive and tell stories!136 of 138 people found the following review helpful. Buy this one! Best variety of designs to color!By Danielle*I love this coloring book! I am so sick of coloring silly pictures with my five year old so looked into something more grin up. The pages are thick and single sided so perfect for markers. It's not just patterns and flowers or animals. All kinds of stuff to color! Love it! Buy this one!

The ultimate doodle coloring book. This big sized coloring book is a challenge for all ages.If you are a fanatic doodler and obsessed with filling in and coloring doodles then this is definitely for you.Or you can just admire the detailed art.The book is filled with 50 unique and extremely detailed work of art by the master of doodles Kerby Rosanes.
