Total must have to caregivingBy christine romerThis is the perfect book for people that are unable to speak as for me, my mother had a stroke and is unable to express in English what she wants, needs or questions about. This book covers many daily events for humans on every level...A MUST for care givers, nursing homes, rehab centers, speech therapist, and your regular people caring for their parent/s, child, or patient!0 of 0 people found the following review helpful. It was a cute and funny short storyBy Sonya HarrisI bought this product as a gift for a 4 year old girl, of course I read first. It was a cute and funny short story. The illustrations were done with imagination and the fact that a 8 year olds dream was fulfilled and he drew "Hooty" makes it all that more special. The girl mom called and she loves her book and the fact at the back of book has pages for her to do activities she loves.0 of 0 people found the following review helpful. Five StarsBy Jan FenderThis was an adorable

book! My grandson and I enjoyed reading it together.

"Hooty Tooty" is a humorous story about Tattle's newly found outdoor pet owl, Hooty, who seems to have a bit of a gas problem!

About the Author Brigette is the youngest of eight children and the mother of three children. The memories of her childhood have inspired her to create short stories for children from the point of view of Tattle, a sweet eight-year-old girl.
