The guys are super cute and the captions are hilarious. A really creative team finds the men, imagines the fantasies and writes the captions. I read their posts every week on Instagram but this book has all new material. Love it. 7 of 7 people found the following review helpful. Some Hunks and Spunk for my Coffee Table! By M. Doherty This book is HILARIOUS!! I loved the Instagram account @hotdudesreading, and knew I had to have a bound hardcover version of my favorite account for my apartment. The captions are hilarious, the dudes are hot (as promised), and the pics throughout NYC make this a fun book that gets attention from everyone who walks in and sees it. Such a great idea, I can't wait for the sequel!! 6 of 6 people found the following review helpful. Bought it for a friend, kept it for myself! By Customer Could not love this book more, bought it for my friend who is obsessed with the instagram and after receiving it ordered another for myself! The men and pictures are beautiful but it's the hysterical captions I keep coming back for.

Humans of New York meets Porn for Women in this collection of candid photos, clever captions, and hilarious hashtags about one of the most important subjects of our time: hot dudes reading. Based on the viral Instagram account of the same name, Hot Dudes Reading takes its readers on a ride through all five boroughs of New York City, with each section covering a different subway line. Using their expert photography skills (covert iPhone shots) and journalistic ethics (#NoKindles), the authors capture the most beautiful bibliophiles in all of New York—and take a few detours to interview some of the most popular hot dudes from the early days of the Instagram account. Fun, irreverent, and wittily-observed, this book is tailor-made for book lovers in search of their own happy endings—and those who just want to get lost between the covers for a while.

About the Author The creators of @hotdudesreading are a group of close-knit friends/marginally-functional young professionals in New York City who never dreamed an inside joke about their borderline-inappropriate fantasies about studly bookworms would become an Instagram phenomenon. The account has racked up millions of views and has been covered by the New York Times, Daily Mail, BuzzFeed, Vogue, and many other fine publications. After almost blowing their entire advance on rosé, they've somehow managed to remain friends (and out of rehab) and can be seen snapping pics and chasing di—, er, dudes all over the city. #HDRTheBook
