I have seen them to write memories for your children, but never for wives which is very important. This book is especially for wives to write down things about their marriage, and husband. There are helpful prompts, passages, and it's a great way to get you to take a look at the important parts of your marriage. There are places to tape/glue pictures, or draw them, and you can just make the pages how you want. The clip art is adorable and classy with plenty of pages you can color yourself. I find writing in this journal to be very therapeutic. There are a lot of meaningful bible verses and passages contained within as well.This would be the perfect gift for a new bride, or even any married woman. It is literally for the whole journey of marriage start to finish. It starts out at the beginnings, talks about God's plan, goes through romance, children, and it's just something to keep throughout all your years.What a great keepsake to have when your older to be able to reflect

on your marriage. And how awesome for your children to look at this one day, and pass it on through generations. I don't know about everyone else, but I would have loved to have a book like this from my grandma or even great-grandma or before her! This is a Christian book, and really shows how to love your spouse deeper in all ways. It's a great way to keep you on track with scriptures, and faith as well. Sometimes life can get so busy and we are human we get swept right up in it not realizing what we are neglecting. It's the little things we don't always catch. All in all this is a fantastic journal and I can't recommend it enough. It really got me thinking, looking back on me and hubby's journey from start to now, and thinking of the future. Disclaimer: I received a complimentary copy of this book as a BookCrash member, in exchange for my unbiased review. This devotional journal is beautifully designed. It has fun pictures and sayings. As well as scripture references and great questions to get you thinking. I enjoyed going through each page and looking at all the pictures and illustrations. I actually considered giving this as a gift to a newlywed I know. This devotional takes you through different aspects of your marriage. From your wedding to your children to romance and dating it helps you focus on several different things in your marriage. I liked how it helps you remember things about your dating life together and your wedding but also on the right things to focus on now. This would be a great addition to any morning devotion or something to do in the evenings before bed. It would be fabulous for you if you love those adult coloring books as well. I know that I have loved the new adult coloring book thing and this is a perfect addition to my coloring book collection. There are plenty of places to add your own thoughts and doodles or even paste pictures on some of the pages. I would recommend this for newlyweds or even as an anniversary present for someone. I received this journal from BookCrash and the author in exchange for an honest review. A positive review was not required. 0 of 0 people found the following review helpful. How Do I Love Thee?: A Devotional Journal for Wives by Jennifer Flanders features devotional pages with journaling activities... By Oak How Do I Love Thee?: A Devotional Journal for Wives by Jennifer Flanders features devotional pages with journaling activities, complemented by Bible verses and quaint old-fashioned drawings. How Do I Love Thee is a neat concept for a book; it is similar in form to a "baby book," but instead of recording your baby's milestones, it functions as a way to record events relating to your marriage. Some pages serve as spaces to jot down fond memories, such as special outings and date nights, whereas other pages serve as opportunities to study Scriptures related to marriage. Page 126, for example, focuses on God's promises regarding prayer, and it lists five relevant Bible verses to look up and write down. I found How Do I Love Thee to be a fun activity book. One of my favorite pages in the book is "All the Details," where you can record where you went on your first date, what you wore, what you thought, etc. I also liked the part of the book entitled "The Early Years," with pages devoted to things such as your family's first car, newlywed adventures you had together, and your favorite way to start the day. \*I received this book for review\*

Happiness in marriage is not so much a matter of chance as it is a matter of choice. Choosing to be happy means choosing to think on things that are good and noble and right and lovely and pure—including your spouse's most positive, admirable, and endearing qualities. Our marriages can't help but benefit when we discipline ourselves to do this. That's the purpose of this journal in a nutshell. Whether you're writing, drawing, pasting, or coloring in it, each page, prompt, and verse is designed to help you recall and record the things you love most about your husband, to reflect on your most cherished memories, and to recognize God's hand at work in your relationship. I pray you will be richly blessed as you meditate on God's Word and allow it to shape your life and marriage.

Jennifer Flanders wrote *How Do I Love Thee? A Devotional Journal for Wives* as a way for Christian women to consciously foster love and respect for their husbands in their hearts and minds. There are relevant Scripture verses on almost every page - either at the bottom of the page or taking up a whole page. And the whole journal is delightfully illustrated and framed with Victorian era designs and pictures. Great idea for a bridal shower gift or someone who is looking to improve their marriage even the tiniest bit (isn't that all of us?). I have read many marriage books, done many Bible studies, flipped through many journals, but nothing that quite puts it all together like Jennifer Flanders' *How Do I Love Thee?* There is something about remembering beautiful things from the past that makes things in the present brighter. I really enjoyed this book and think you will, too.
