This book is very sarcastic, and some of the quotes and author's cooments are quite felicitous and funny. However, while I was reading this book, I really hoped to see in the end something like finishing shot. That would be a killer, really!But, nevertheless, the book is good. I like satire, and this book is revealing some absurd points of the Trump's campaign. I just hope we will see

the similar book for another candidate from the same publisher. Because there is a lot of things to make fun of Clinton as well. It was also hard to read some of the notes on the comics. It was possible, but hard because of the small and illegible fonts that the author has used. 0 of 0 people found the following review helpful. Very funny book!!!!By Rachael Thompson This is by far one of the funniest book I have ever. It contains details of statements made by Trump on how he will become the greatest president including going to war with the Chinese, maintaining natural hair, exposing your sex life and a lot more. Ideas on this book made the popular are so ridiculous and boredline non-sense you will be laughing while reading it. Parody or not, this book is highly enjoyable both for believers and non-supporters alike. Two thumbs up! 0 of 0 people found the following review helpful. Humorous and FunBy Brenda I definitely had a great time reading this book because the statements are absurd. Surely, that is the whole intention of this book to point out the crazy intentions and ideas of Donald Trump. While some may find them offensive, it is very entertaining to say the least and I enjoyed reading this book. If you want something to laugh at, go ahead and give this a shot.

In this book, we decided to share with you 30 well-known expressions and statements, that Donald Trump has made during his presidential campaign and years ago by highlighting the absurdity in his words. In order words, this book is dedicated to all of you, who can appreciate humour about sensitive topic. It is a fact, that Donald Trump has a personality, that is certainly extreme, despotic, and highly combustibile, therefore, particularly rare for a presidential candidate in any democratic country. Luckily, many unique strategies have been discussed, as well as, many necessary questions have been asked about Donald Trump during this campaign season. However, the fundamental question, that we have in our minds, stays the same, 'If Donald Trump becomes a president of the United States, will he Make America Great Again?' And most importantly, 'if it is up to him, how he will accomplish that?'
