This book is a collection of many blog posts he wrote. Some are amusing, some are funny, many are insightful but there are also some that look a little out of place. I enjoyed a lot his previous book (The Married Man Sex Guide) but it seemed to me that the major ideas were repeated here (literally a copy-paste) and the rest was just an entertaining reading without much profit. Athol Kay is a great author, if you haven't read anything from him then buy his previous book. If you absolutely loved it or if you need some more examples to understand his ideas then buy this one. 0 of 0 people found the following review helpful. Highly recommended read for men!! By Patrick This book is awesome for truly understanding women, and what makes relationships work. Athol comes at it from a perspective that is not often talked about, and provides good, clear answers to things that tend to mystify and frustrate us as men. And the answer to "Do these pants make my ass look fat?" was the best, most creative answer I have ever heard. Highly recommended read!! 0 of 0 people found the following review helpful. Would be 5 stars if... By CL H1 The purchase price "unlocked" the blog so that you can read it there with all the pictures and videos intact. Much more interesting than the boring text only Kindle crap that this is. Some good info, but a lot of it aimed at wives. I find that odd with a title like this. Full disclosure : I prefer real paper books.

A collection of 101 brilliant and hilariously true short essays that everyone interested in love, sex and marriage needs to read. A fearless intellect coupled with a compassionate spirit, Athol ruthlessly tosses out the politically correct bath water but keeps the babies safe. At times controversial, at times wickedly funny, but always a powerful voice for love, marriage and hope. Important stuff this book tells you that you simply have to know: The two types of men that women ping pong between. Page 9. About the Author Athol Kay is an innovative thinker, humorist and family man with a one track mind. He is a "Mixed Marital Artist" combining a variety of relationship approaches from evolutionary psychology, Pickup Artist "Game", sociology, biology, life experience, romance novels, crappy women's magazines, far too many books, blogging, behavior modification and cheap porn. He has distilled all this research into a few outstandingly effective tactics for gaining happiness and sex in marriage. Jennifer Kay is the author's wife and she is mentioned 244 times in this book. She edits and approves of all Athol's writing before he publishes it. This is in no small part due to his riding roughshod

over grammar, but mainly because Athol occasionally says things about her that her mother might read. Athol was born in New Zealand and met Jennifer nine days before he was due to fly home after working on a summer camp in Maryland in 1991. Long distance for three years, they finally married in 1994. Married for 17 years, they have two daughters and live in Connecticut. They have a carefully balanced relationship where Athol dreams up all kinds of weird stuff, and Jennifer doesn't leave him.
