If you need information, go to an expert!By dbezSteve Allen is STILL a national treasure; one of the most talented people whose gifts I had the pleasure to experience. I read this book years ago and have purchased this copy as a gift for my 15 year-old grandson. Steve was one of those gifted people whose memory needs to be preserved.If at all possible find any videos of his many stints as a variety/talk show

Sadly, it's more of a term paper than a useful book.I recommend The Comic Toolbox by John Vorhaus over this - it's much more approachable and usable.0 of 0 people found the following review helpful.
