**Wayne Allred : How to Cope When You Are Surrounded by Idiots... Or If You Are One** before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Cope When You Are Surrounded by Idiots... Or If You Are One:

0 of 0 people found the following review helpful. Five StarsBy Mariah RaleyLove this book! So glad has it!0 of 0 people found the following review helpful. Five StarsBy Jenna GadlhaArrived on time and as described.1 of 1 people found the following review helpful. Funny book, combined with "Life is not fair"By Robert Y. LamauteThis book goes hand in hand with "If Life was fair, Horses would ride half of the time..." An easy funny read that I still refer to from time to time. I've given it to my teenage kids as well.

A course designed to give remedial training to idiots so that they can function in society. Includes test to determine who is an idiot and train-ing on 101 things you should absolutely never do. Also other unique methods of coping with idiots.

From the Back CoverWayne Allred, while not having been born in a log cabin or covered wagon, nevertheless descended from progenitors who lived a long time ago and who survived many privations. As a young man, he distinguished himself by flipping spitwads far and with great accuracy while a high school student and also for once eating nearly an entire watermelon in one sitting. Considerable money was invested in his education which he actively pursued. As an adult he has so far (as of 7/20/94) never been arrested for murder and he still has all of his own teeth. He is a mammal. His favorite color is aqua. He currently resides with his family where he can often be found.Excerpt. Reprinted by permission. All rights reserved.From Chapter 1: Do you often feel that you are surrounded by idiots? To me they seem to be everywhere. They are in my office, on the job, attempting to wait on me, in the classroom, even in my home. In fact, it is entirely possible that you, the person who is attempting to read this book right now, could even be a complete idiot. What can be the real tragedy about this deluge of bumbling incompetence is that many people who are incredibly stupid and terminally obnoxious don't even realize it! Do you know how annoying it is when people who don't know how dumb they are try to act smart? Even if you, yourself, are not totally inundated with idiots like I am, I'm sure you at least know someone who has idiotic tendencies. Until now, there was simply nothing that you could do about it. Most idiots were stuck bumbling around and doing embarrassing things forever while the rest of us were forced to try to either avoid them, or just tolerate their stupidity. But now, finally, relief is in sight. This monumental work can train you, your pathetic friends, children, employees, or students in 101 of the most important and fundamental skills that are essential to getting along in life as an idiot. If you can manage to master the information taught in this course, even if you are pretty darned dense, some people might be fooled into thinking that you're normal and, short of that, you might at least confuse some of the rest of the people concerning the extent of your stupidity.
