Some repetitions but over all is well worth the time and money!4 of 4 people found the following review helpful. So true ... So hilarious!By Chris HainThis book is so funny. It would probably be even funnier if it wasn't true that so many people drive crazy like this. Even though I live in Los Angeles, there were many things in the book that I've never even thought of. I'm a bad driver, but now I can be even worse!2 of 2 people found the following review helpful. Great gift for that someone with a lead foot =)By Mark

TwainGot this for my girl friend. it was a great laugh. This book lets you see from the point of view of the crazy drivers out there.

We've all eaten their captivating dust from afar, wondering how they manage to smoke, chat on the phone, and change lanes all at the same time. Maniac drivers make it look so easy as they cut us off, but now, for the first time, their secrets are available to the rest of us. Whether you're a grandma or just plain sensible, you'll be driving offensively, honking your horn, and gunning it through late yellows in no time. Learn how to: *Choose the perfect maniac vehicle and customize it for maximum intimidation, vision blockage, and gas guzzling *Cut across five lanes in just one block *Get over your conscience and consideration of others
