Ron Ben-Meir : How to Get Free Food in College: The Starving Student's Survival Guide before purchasing it in order to gauge whether or not it would be worth my time, and all praised How to Get Free Food in College: The Starving Student's Survival Guide:

0 of 1 people found the following review helpful. Five StarsBy VIVIANAGood book to give to college bound child.6 of 10 people found the following review helpful. offensive bookBy B. SpringerI ordered this book as a fun joke-like book for my college aged niece. However, in flipping through it before I gave it to her, I read some very morally corrupt and even illegal ideas on how to get free food. The author advocates stealing food from the grocery store by eating donuts from the donut case while you walk around the store shopping! This attitude, even in a joking manner, I believe erodes the morals of our society and ultimately creates the ethical issues we are facing today, such as Enron.Do not support the author by buying this book. There are so many good, funny, smart, entertaining books in the world to choose from instead.2 of 4 people found the following review helpful. possible Pulitzer Prize winner?By D. Larawhat a fantastic read, i believe some kind of recognition is in order for Ben-Mier. I'm not too sure that a Pulitzer Prize is that far of a stretch for this piece.there is not a better book out there for the would be college student, or for the would be toilet sitter.The ideas are superb and written in the most fluid of prose, no hoity toity shakespearesque language. Buy this book, your life depends on it...
