Beck I got this for my girlfriend... before I gave it to her I started reading through it and was blown away at how incredibly written it is. It is on point with Catholicism but written in such a loving way. My girlfriend has commented how much she is enjoying reading it as well. I ordered another copy of the book for myself because I just love how the book answers questions regarding Catholicism. I highly recommend this book! 0 of 0 people found the following review helpful. a great place to start. By KRNTbaby I have given this out before to people looking to marry a Catholic or to possibly join the Church. I think some might see it as a bit left of center, but it's a big church, with room for lots of people and a range of views. I find it easy to read, attractive in format, and though in places there needs to be more detail and fill-in, I think it is a great place to get someone to start from, not too intimidating or overwhelming. 0 of 0 people found the following review helpful.
