One of my favorite books of all time, if not my favoriteBy Catherine TaorminaIf you were an abused child, and want to gain more insight and understanding into the reason you are the way you are as well as an in depth analyzation of how F'd up your abusers really were/are, this is the book for you. It will make you feel empowered by how well you can read your abusers like text books. A definite read for parents and those looking to become parents who care not to fall into habits, routines and sometimes seemingly harmless methods that are damaging to the entirety of mankind, because folks, we all know that it starts in the home and then spreads

into the global consciousness of humanity. You have the spirit of human potential in your hands when you train a child by your example and treatment. Those who truly care will take every grain of salt in this book to heart, body and soul! 0 of 0 people found the following review helpful. Learn how to: *Determine your traumatizing type *Cultivate your children's resentment *Give your children enough material to write a memoir someday *Defend your choices against others who've opted to traumatize differently
