Jason Mulgrew : How to Write a New York Times Bestseller in Ten Easy Steps (eBook Original) before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Write a New York Times Bestseller in Ten Easy Steps (eBook Original):

23 of 24 people found the following review helpful. Does not deliverBy Sandy N.With such powerhouse tips as step 1. "Think of an idea" and step 2. "Make sure you want to do this", how could this have gone wrong? Let's count the ways.1. The suggestions are basic pre-101 stuff at best. If you have even heard of these things called "books" you will

have intuited the tips presented here.² The humor alternates between crude and lame.³ 65% of the book is ads. No, this is not an exaggeration. The actual book starts at 3% and ends at 35%. The rest of the "book" is promotions for the author's other projects. With an estimated length of 36 pages, that means only 11 pages are about the stated topic. I totally support an author's right to promote their next book, but making 65% of your current book a promo is a bit extreme don't you think?? Sadly, the book isn't even worth keeping on my kindle and is scheduled for deletion as soon as I hit publish on this review. 0 of 0 people found the following review helpful. A mostly waste

By Pat Stanford While I did laugh out loud ONE TIME, most of the humor was childish. I thought this would have something serious in it besides the snarkiness. Well, it did. It had excerpts from his other stuff in the back of this "book" so you'll buy them. If this is any indication, I probably won't be doing that. 0 of 0 people found the following review helpful. By Teri I already knew with a title like this that it was probably a parody or sarcastic book. It kind of is, and I almost felt this book was more for entertainment than helpful. If you're looking for a helpful book to get started writing, I'd suggest *How to Write a Book: For Beginners: A Guide to Writing Your First Novel*, which has no claims that you will write a New York Times Bestseller in ten steps, and instead focuses on things you need to know.

For a few "glorious" weeks, Jason Mulgrew's first book, *Everything Is Wrong with Me*, appeared on the New York Times bestseller list, before dropping off and returning to the deep obscurity to which it belongs. Jason Mulgrew has not been able to shut up about it since and now believes that he is qualified to write the following primer, "How to Write a New York Times Bestseller in Ten Easy Steps."
