**Peter Barnum : How Trump Will Make America Great Again** before purchasing it in order to gage whether or not it would be worth my time, and all praised How Trump Will Make America Great Again:

1 of 1 people found the following review helpful. I Laughed, I Cried, I Grabbed My Cat and Read Cover to CoverBy Karen DeCraneI have followed the career of the man who would be our leader for many years, trying unsuccessfully

to understand what makes him tick and his wide appeal. I've read his words err his ghostwriter's words, many articles, and commentaries in my quest for understanding. This book clearly points out to me what I was missing in the easiest way possible. When it arrived, I eagerly read the cover, then opened it to dive in and was met with an overwhelming sense of true understanding. Then I discovered the real tweet, err treat. This book was also useful in other ways! I began using it to note the grand prevarication of the day, the mesmerizing effect those little finger gestures had on audiences, and the residency requirements of safe haven countries. I can't stop, the pages are filling up rapidly and I fear I will need to grab yet another copy. My only hope is that you too will find the enlightenment and utility this useful book will bring into your life. Truly a book for the times ahead.

After thorough research there was zero evidence of any supporting content for this book. Full of blank pages for your notes about resistance, this book will bring much needed levity during these dark times. Makes a perfect gift.
