**Frank Carr : Hugz: What The World Needs More Of!** before purchasing it in order to gage whether or not it would be worth my time, and all praised Hugz: What The World Needs More Of!:

HUGZ: n. (1) An innovative form of one line humor. (2) The perfect end to every email, e.g., "HUGZ for spouses who understand that they don't have to go to a fancy resort hotel to experience nightly turndowns." Or "HUGZ for those

who believe athiests belong to non-prophet organizations."

About the AuthorFrank Carr invented HUGZ as a way to add life to the signatures of his emails. A longtime administrator of health care organizations, he still signs every email with a HUGZ and encourages readers to do the same.
