**James Anthony Ellis : Huh?: The Joys, Sorrows and Comic Relief of Miscommunication** before purchasing it in order to gage whether or not it would be worth my time, and all praised Huh?: The Joys, Sorrows and Comic Relief of Miscommunication:

Huh? The Joys, Sorrows and Comic Relief of Miscommunication" is a satirical view on this silly thing we call

"communication." This is a lighthearted yet biting look at the mishaps, misfires and blunders we experience as we attempt to send and receive messages in this modern age. This hands-on "how-to" manual outlines the various miscommunication techniques in interpersonal relationships, as readers are guided to laugh at themselves and the errors of their ways. In the end, however, the laughs turn to tears as the author uncovers the true intention of all of our words and e-mails and texts and tweets: a desperate yet endearing need to connect with one another.
