**John A. Gosling MD MB ChB FRCS, Philip F. Harris MD MB ChB MSc, John R. Humpherson MB ChB, Ian Whitmore MD MB BS LRCP MRCS, Peter L. T. Willan MB ChB FRCS : Human Anatomy Coloring Book** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Human Anatomy Coloring Book:

An inexpensive workbook which supplements Human Anatomy Color Atlas and Text. Organized in the same manner as the atlas, with an introduction and seven anatomic regions, the workbook features black-and-white outline representations of the line drawings found in the core atlas. Students are asked to identify specified anatomical

structures by filling in the appropriate parts of the outlines.
