Joe Grant Palmer : Humour avec Humor before purchasing it in order to gage whether or not it would be worth my time, and all praised Humour avec Humor:

The meaning and the mystery involved is now clear when the best inspiration for a neo artistic writer work is evolved and somewhat created in and around the sunrise. It happened to fill a book printed: Humour avec Humor.

About the Author On the eleventh of September, morning, 2001, the despicable terrorist exploit in New York City is seen on the TV. The morning after, the best to do is to start to write a book about a glory of the wounded city. This is about the Bellevue Hospital and Medical Center where a surgical residency was coronated by success when nominated chief resident. At the same time elected to be a member of the faculty of the N.Y. University Hospital and Medical School. A function is to instruct medical students and give lectures. Following a tour of one year, in a pioneer center of open heart surgery, as a follow resident, is done. The reorganization of a foreign hospital in the advanced surgical anesthesiological matters is performed in the city of Milan (Italy). It is two year performance (the hospital has to build a new wing). The first book (Bellevue, the way it was) is published. Two more books are accepted for publication. One book is ready to move. It is nonfiction, a scientific historic and prehistoric search with outstanding discoveries. A powerful fiction: "Love stories in wartime" is soon ready. This book: "Humour" is more than 100 stories of multiple subjects with, as a common denominator, a dose of humor in multiple aspects.
