While I may never decide to head into the woods myself, this book of Mr.

Armani's sheds a little light on why others do.

The author, who is a life long hunter, brings a humorous touch to the sport of hunting. Admittedly not a serious manifesto or guide to the killing of game this is rather the light hearted musings of an old man as he takes the reader along on his quest for small and big game. Anyone raised in a hunting family will find plenty to identify with in this everyman's excursion into friendship, family, hunting and humor.
