Arthur Avalon : Hymn to Kali before purchasing it in order to gauge whether or not it would be worth my time, and all praised Hymn to Kali:

4 of 4 people found the following review helpful. dated and difficult By CariI wouldn't suggest reading this unless you are either Hindu or very familiar with Hindu religion and terminology--and someone familiar with those will no doubt find better works in Hindi, Tamil, etc. Although it was no doubt a welcome ground-breaker in its own time, this group of translations uses dated English and has little to offer, unless one is interested in the history of Hindu studies in the English language. Native terms (in transliteration) are used very often, sometimes in every sentence, and are attributed

but not translated in footnotes. Although of course the authors are to be praised for their audacity in doing work on Hindu religious studies at a time when Western culture had little appreciation for them, the modern reader will find this very heavy going.

This is a pre-1923 historical reproduction that was curated for quality. Quality assurance was conducted on each of these books in an attempt to remove books with imperfections introduced by the digitization process. Though we have made best efforts - the books may have occasional errors that do not impede the reading experience. We believe this work is culturally important and have elected to bring the book back into print as part of our continuing commitment to the preservation of printed works worldwide. This text refers to the Bibliobazaar edition.
