Burt King, Randy Siegel : I Am Burt King: The King of Washington before purchasing it in order to gage whether or not it would be worth my time, and all praised I Am Burt King: The King of Washington:

Burt King is the most famous political consultant in American history. He has been a senior adviser to U.S. presidents, members of Congress, governors, foreign dictators and ruthless multinational corporations. This is his unauthorized

autobiography, featuring an exclusive, insider's account of his life -- and the earth-shattering week that changed Washington and the United States forever. Praise for I AM BURT KING: "Burt King embodies everything you always wanted to know about Washington but were afraid to ask. He'll make you laugh - and cry!" -- George Stephanopoulos, chief political correspondent for ABC News, co-anchor of ABC News' Good Morning America, host of ABC's Sunday morning This Week "Great fun! As you enter the power-, money- and sex-crazed King's "autobiographical" tale, you see it as a cartoon, often hilarious, of what these K Street creatures are like as they throw their weight around. But as you get deeper, and the beautifully bizarre incidents pile up, it takes on a rather documentary kind of reality. Hey, this is where we're heading! Enjoy the ride, but sell off all your U.S. assets and move to New Zealand." -- Robert Whitcomb, vice president and editorial-page editor, The Providence Journal A PARADE PICK: "You've never met anyone like Burt King." "The greatest story ever told." -Burt King, America's foremost political genius and author
