**Francis Reuben Sturt : I Am What I Am: 601 Original Quotes and Quips of Donald Trump** before purchasing it in order to gage whether or not it would be worth my time, and all praised I Am What I Am: 601 Original Quotes and Quips of Donald Trump:

If you like outrageous satire, then you will love this awesome and amusing book, about the man who is the President of the USA. This book is a hilarious, yet insightful guide to the wrath and wit of America's most dangerous and controversial politician, celebrity and writer. Trump is a larger than life character who has cheered and maddened the hell out of friend and foe alike, with his firebrand speech. This is a unique and spell-binding book of over 601 original quotes by Mr.Trump and creative, one-liner, quips by the author. The book includes only the most naughty and madcap quotes and quips, that attempt to show that Trump is both a serious contender and a comical genius in his political and personal life. My quips, shown in bold, are of my own and not those of Donald Trump. The crazy "quips" are what Trump may say about his own quotes and condense a whole quote into a sentence or two. About the Author Francis Sturt lives in the Midlands of the UK, together with his flea infested moggie. His strangest experience was recently in the Philippines, where Francis lived in a jungle village, surrounded by Cobras, rabid dogs and over-friendly natives. Francis is a rare breed of authors with a jaded sense of humour and has over 12 qualifications in Languages, Sociology and Psychotherapy. Francis says he has one goal in life, to be infamous rather than famous. Why? Everybody has got it - infamy!
