I spent my own money to buy this book so it better have been good, it was! I can tell from reading this that John put some thought into it. Knowing him the way I do I can tell you that in itself is a major accomplishment. I learned a few things from him and I'm older than he is, I'm not sure how he pulled that off. People, young men especially, buy this book then, go the extra mile and read it. John Heffron put down his video games and collaborated with a friend to write you a book on how to avoid mistakes, you don't understand how big a deal this is. He used to ask me if he had to wear big boy clothes on TV. Just the listening and arguing techniques are worth the price of this book. Women will love you and think you are wise beyond your years. Where was he when I was ruining my credit rating? I loved this book. I'll be buying a copy for my nephew First to hit him with then for him to read. Save time on life's lessons guys. Just read this book!

By Kurt Currently 31, if I would've read this book 10 years ago, I could only imagine how many of my idiot decisions would've been avoided; however, reading now, I can only imagine how many of my future decisions will be made with a better mindset. All and all, the best part of this book is how relatable it is. The structure of the topics, the use of analogies, and relevance to our everyday life makes it one of the easiest (and beneficial) pieces that you will read. This isn't a book for a specific gender written by a comic to make people laugh (although it certainly will); it's a book filled with 'life nuggets' written for all by a person with a successful, social career who shows how 'uncommon events' are actually quite common and how you should tackle those occurrences.

He can be that guys that says to his Grand kid - you had to find the remote...we had to stand up and walk to the TV set to change the channels. You had to spend hours reading about your book report topic on Google - we had to know the periodic table so we could find books in a library! John sees the humor in every day life from past generations and translates it amazingly!!! He is so much more than a cute face and nice jeans! He was born a star and is living that potential! Must read if you like to laugh!

Hey, One day those condoms in your Pocket will turn to Tums... During that journey, you might even realize wearing a Shirt with a random number on it, is kinda dumb. A lot of life question and trouble is headed your way. Comedian John Heffron and Topher Morrison may have just made your life a lot easier. by giving you the most important insight and tools you never knew you needed. The 2.5% of stuff that actually matters, that will net you the results you really want in life, whether you know it yet or not. It's not a comprehensive, uber-philosophical treatise on becoming a superior 21st century man. - it's a quick read (one bathroom trip may be enough) with a lot of answers you are going to need to know in one place. I Come to You from the Future is all about fast and furious and sometimes funny strategic tips from guys who have been there and done that more times than you can count. My goal is to prepare you to meet your future; so the guy staring back at you in the mirror in 20 years isn't some middle-aged douche wondering why his life sucks. As a special "Thank you for buying", inside there is an amazing bonus of 10 hours of vid that will cover: \* Overcome procrastination and fears that have been holding you back \* Create more CONFIDENCE and ENERGY for your life \* Rekindle the spark in relationships \* Develop and really enjoy a healthy diet/lifestyle \* Get more accomplishment and joy out of life \* Effective communication with your kids - and your parents
