Lots of purposeful misspellings, that add to its charm. 4 of 4 people found the following review helpful. Great book, and the fact that my dog is in it makes it even better! ;) By Christian Saborío Of course this review is biased, what owner would not give 5 stars to a book where his dog showed up? Would I buy this book if my dog was not in it? Absolutely. I frequent IHAH on daily basis, and having this little book available is a nice reminder on how funny the pics and captions are. The book is divided into sections which keeps the different pics grouped under the same theme. For \$8, this book is a steal, get it now!
