It's always best to load up before going shopping in a crowded store; there you can spread your good will anonymously and hear such memorable sayings as "...it smells like someone mighta pooted!!!..." Or, if you are tactically minded, you can position yourself in line in such a way that you won't be blamed for the smell...a great way to make someone else's day when a big bruiser puts a fist on 'em. I don't recommend that approach unless you're brewing up the strong silent type of farts since any sound will alert everyone that you are actually to blame...and what's the point of getting yourself beat up??? It's much more fun to watch someone else catch hell...!!!1 of 2 people found the following review helpful.
