This book is absolutely outrageous. From front to back it hits you with clever, funny, probably actual things animals would say if they could talk. I keep mine on my desk for a quick laugh on days when my boss sucks up all my happiness. I also bought one for my mom who has a sense of humor that's a bit more on the dirty side, and she immediately bought a few more for her friends at work ( she works at an elementary school). Totally worth it. 9 of 10 people found the following review helpful. Where are my keys? -kangaroo By Misty Weaver Love all of the one stars about it not being child friendly-what exactly did you think "not for all ages" meant? Anyway it's a hilarious book I saw floating around twitter and buying because there's a dauchshund in it that says something pretty "vulgar" but will make for an interesting coffee table book. Witty humor and cool illustrations. 6 of 6 people found the following review helpful. Five star book. One star reviewers. By river tam I cant believe that people are giving this one star because they bought a book for adults that they thought was for kids. There are plenty of clues on the page people. Next thing they think "Swear Like Daddy" by Darren Cezanne is an educational book or Go the F\*\*\* to Sleep really is a lullaby. They are novelty/humour books you \*\*\*\*\*.

If animals could talk, what would they say? Find out in this hilarious book appropriate for all ages! (Definitely not for

all ages.) Born from their hit Tumblr blog, “If \_\_\_\_\_ Could Talk”, Carla and Josh use their witty writing and unique illustration style to dive deep into the minds of your favorite animals. (Seriously, they get all up in there.) “If Animals Could Talk” is one of the rare books to be considered as both the Bees Knees AND the Cats Meow. Even Grumpy Cat is a follower! Featuring nearly 100 original illustrations including Tumblr favorites and new never-before-seen artwork, “If Animals Could Talk” is the perfect addition to your collection of talking animal books. Oh, you don’t have a talking animal book? Hmm, you don’t say...
