**Leigh W. Rutledge : If People Were Cats** before purchasing it in order to gauge whether or not it would be worth my time, and all praised If People Were Cats:

0 of 0 people found the following review helpful. Here kitty, kitty, kitty...By AppaquarhorI loved this book. It was adorable and witty. Although there is one page that stands out in my mind above all others. "If people were cats, I'm a believer. Sex would be noisier, and an awful lot briefer." The rest of the book follows somewhat along those humorous lines. I would love for this book to be available on Kindle.

The best-selling author of A Cat's Little Instruction Book, who himself lives with thirty cats, takes an amusing look--using poetry, prose, and insights--at what the world would be like if some of our common traits took on a feline perspective.
